- **Up to 6 different currencies**
- **Checking of pre-sorted banknotes**
- **Validation of security features**
- **Multi-value balancing for faster cash balance**

We make cash flow.

ProNote 100 / 120
Banknote Counter

ProNote 100/120 counts banknotes at a speed of up to 1,500 notes per minute. ProNote 120 also checks UV and magnetism security features at the same time. Equipped with a clear LCD display and a sophisticated menu, this banknote counter meets all customer requirements in an easy to use, compact and secure device. Detailed information on the display guide the user through potential recovery functions.

MVB – MultiValue Balancing™ does all the adding up in the cash accounting and determines the amounts counted automatically.

Piece counting (ProNote 100)
Optional value counting (ProNote 120)
EUR, USD, GBP and three more self defined currencies

Value counting mode
Validation and value counting of pre-sorted banknotes

Piece counting mode
With validation of activated security features

Validation of security features
ProNote 100:

UV	validation of UV security features

ProNote 120:

UV	validation of UV security features
MG	validation of magnetism security features

Just one keystroke is needed to
– switch between currencies and counting modes
– display with detailed listing of all notes counted
– printout of counting results

Optional: **customer display** for more transparency while counting.

LED display (ProNote100)
